

# QuiltNebraska 2009

## Saturday Afternoon Class

**SPM76**

**Kriss Moulds**

**FABULOUS 4-BLOCK**

**MEDALLIONS**

All Levels

Twist and turn 4 identical pieced blocks together to create a perfect central area for appliqué on paper, that is! We'll draw block designs on graph paper, grinning with glee as our brains catch on fire with quilt ideas. By using "pieced" blocks, the appearance of medallion borders can be created without the necessity of actually attaching multiple borders. Further design options practically suggest themselves, plus provide possibilities for background interest and playing with color. Class includes a demo on needle turn appliqué and how to work with bias vines. Instructor will provide samples of types of graph paper, two handouts and a mechanical pencil with eraser at no charge.

### **Supplies:**

Colored pencils

6"x6" ruler

Graph paper or graph notebook

Paper scissors

Glue stick
